INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Delaware Highlands Conservancy

We have audited the accompanying financial statements of Delaware Highlands Conservancy (a Pennsylvania nonprofit organization), which comprise the statement of financial position as of December 31, 2015, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

The Conservancy's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Delaware Highlands Conservancy as of December 31, 2015, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. Schedules I and II are presented for purposes of additional analysis and are not required parts of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Report on Summarized Comparative Information

We have previously audited Delaware Highlands Conservancy's 2014 financial statements, and our report dated February 26, 2015, expressed an unmodified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2014, is consistent, in all material respects, with the audited financial statements from which it has been derived.

DELAWARE HIGHLANDS CONSERVANCY
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2015

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Nature of Operations

Delaware Highlands Conservancy is a not-for-profit corporation whose mission is to conserve lands that define the upper Delaware River region, to protect its ecology, to sustain its outdoor traditions, and to promote the well-being of its people. The Conservancy negotiates conservation easements on behalf of landowners and various holding agencies and other organizations who operate in this region. The Conservancy's support comes primarily from contributions, grants, and public education programs.

Method of Accounting

The Conservancy has prepared its financial statements using the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Conservancy considers all highly liquid investments purchased with a maturity of three (3) months or less to be cash and cash equivalents.

Accounts Receivable

Accounts receivable and unconditional promises to give are stated at the amount the Conservancy expects to collect from outstanding balances. Management believes that all accounts receivable are fully collectible based upon an analysis of outstanding accounts. Accordingly, no allowance for doubtful accounts has been provided. Uncollectible accounts are charged to expense after all collection remedies have been exhausted.

Marketable Securities

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position.

DELAWARE HIGHLANDS CONSERVANCY
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2015

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property and Equipment

Property and equipment are recorded at cost, or if donated, at the approximate fair value at the date of donation. Significant additions and renewals are capitalized. Payments for maintenance, repairs, and minor renewals are charged to operations as incurred. Depreciation is computed using the straight-line method over estimated useful lives of the assets, which range from five to seven years. Depreciation expense for 2015 was \$3,696.

Contributions

The Conservancy reports information about its financial position and activities in three classes of net assets: unrestricted, temporarily restricted, and permanently restricted. Contributions are recognized as unrestricted or temporarily restricted when received, depending on the existence and nature of donor restrictions. When restrictions are satisfied, revenues are reclassified and reported as net assets released from restrictions. If the restrictions are satisfied in the same period as the contributions are received, the contributions are reported as unrestricted.

Promises to Give

Unconditional promises to give are recognized as revenues or gains in the period received and as assets, decreases of liabilities, or expenses, depending on the form of the benefits received. Conditional promises to give are recognized when the conditions on which they depend are substantially met.

Easements

Easements are restrictions placed on the development of certain parcels of real estate and are held in perpetuity by the Conservancy. The Conservancy expenses property easements when paid, and uses the zero value approach to value easements for financial statements purposes.

Donated Services, Materials, and Facilities

The Conservancy receives donated services from a variety of volunteers including legal, accounting, and website design services. Amounts recognized in the accompanying statement of activities have met the criteria for recognition of such volunteer effort under generally accepted accounting principles. The Conservancy also receives and records donated materials and facilities for certain events.

DELAWARE HIGHLANDS CONSERVANCY
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2015

NOTE 1 - NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Functional Allocation of Joint Costs

The costs of providing the Conservancy's various programs and supporting services have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited. During 2015, Management allocated \$100,635 of joint costs to Management & General expenses, and \$34,078 of these costs to Fund Raising expenses.

Income Taxes

The Conservancy is exempt from income taxes pursuant to Internal Revenue Code Section 501c(3) and the laws of both New York State and the Commonwealth of Pennsylvania.

NOTE 2 - MARKETABLE SECURITIES

Marketable securities as of December 31, 2015 are summarized as follows:

	<u>Cost</u>	<u>Fair Value</u>
Money Market Funds, Unrestricted	\$ 11,314	\$ 11,314
Money Market Funds, Temporarily Restricted	86,811	86,811
Common Stock, Unrestricted	1,385	1,053
Common Stock, Temporarily Restricted	176,072	195,336
Mutual Funds, Unrestricted	328,917	326,176
Mutual Funds, Temporarily Restricted	<u>507,718</u>	<u>510,428</u>
<u>TOTAL MARKETABLE SECURITIES</u>	<u>\$ 1,112,217</u>	<u>\$ 1,131,118</u>

NOTE 3 - CONCENTRATIONS OF MARKETABLE SECURITIES

Financial instruments that potentially subject the Conservancy to concentrations of credit risk consist principally of marketable securities. All marketable securities are held with either The Vanguard Group or Merrill Lynch, both of which are international investment companies.

NOTE 4 - PROPERTY HELD FOR RESALE

During 2015, the Conservancy acquired a property and sold another. At December 31, 2015, the Conservancy owns and holds two properties totaling 32 acres. The properties are located in Sullivan County, New York, and are reflected at their combined fair value of \$111,466. The Conservancy's management has determined the property to be held for resale.

DELAWARE HIGHLANDS CONSERVANCY
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2015

NOTE 5 - FAIR VALUE MEASUREMENTS

The Fair Value Measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for the identical assets or liabilities in active markets that the Conservancy has the ability to access.

Level 2

Inputs to the valuation methodology include (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; or (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Money Market Funds, Common Stock, and Mutual Funds: Valued using quoted prices in active markets for identical assets. *Property Held for Resale*: valued using current appraisal for real estate.

The preceding methods described may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Conservancy believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

DELAWARE HIGHLANDS CONSERVANCY
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2015

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Conservancy's investments at fair value as of December 31, 2015.

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Money Market Funds	\$ 98,125	\$ -	\$ -	\$ 98,125
Common Stock	196,389	-	-	196,389
Mutual Funds	836,604	-	-	836,604
Property Held for Resale	-	111,466	-	111,466
<u>Total Assets at Fair Value</u>	<u>\$ 1,131,118</u>	<u>\$ 111,466</u>	<u>\$ -</u>	<u>\$ 1,242,584</u>

The carrying amounts of other assets and liabilities, including cash, accounts receivable, prepaid expenses, accounts payable, and accrued payroll taxes approximate their fair market value due to the short term maturities of these instruments.

NOTE 6 - TEMPORARILY RESTRICTED NET ASSETS

Temporarily restricted net assets are available for the following purposes or periods at December 31, 2015.

Monitoring of Easements	\$ 494,207
Legal Defense of Easements	305,883
Property, Time Restriction	68,466
Land Protection	19,720
<u>TOTAL</u>	<u>\$ 888,276</u>

NOTE 7 - DONATED SERVICES AND MATERIALS

These revenues for 2015 are comprised of the following:

Legal Fees, Land Protection	\$ 54,750
Accounting, Program	6,400
Website Design and Videography, Education	4,985
<u>TOTAL</u>	<u>\$ 66,135</u>

DELAWARE HIGHLANDS CONSERVANCY
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2015

NOTE 8 - RETIREMENT PLAN

The Conservancy has established a retirement savings plan to provide post-employment benefits to its employees. All employees who meet age and service requirements are eligible to participate in the plan. Each participant may contribute a percentage of his/her annual compensation to the plan, subject to annual limits established by the Internal Revenue Service. The Conservancy may make discretionary matching contributions to the plan, as determined by management. The Conservancy did not incur any retirement plan contribution expense during 2015.

NOTE 9 - OPERATING LEASES

The Conservancy utilizes operating space in Hawley, PA under a rent-free agreement. The fair market value of this donated space has not been determined.

The Conservancy leases operating space in Bethel, NY for a term of five (5) years. Under this agreement, the Conservancy pays annual rent of \$6,000 per year, plus insurance and utilities. The lease agreement terminates on March 1, 2017.

Future minimum rentals payable by the Conservancy are as follows: 2016 - \$6,000; 2017 - \$1,000

NOTE 10 - LITIGATION

The Conservancy is one of many defendants in a 2008 complaint filed by RPC Resources, LLC (RPC). RPC claims that certain lease rights granted to it by KD Land, LLC (KD) take precedence over a conservation easement granted by KD to the Conservancy. RPC has made no claim against the Conservancy for money damages. At issue is the validity of the conservation easement held by the Conservancy.

During 2015, the litigation involving RPC and KD was discontinued by Order of the Court. The discontinuation Order is without prejudice to the Conservancy, in the event there is future activity on property subject to a conservation easement which is deemed adverse to the interest of the Conservancy as a holder of the easement, and which requires litigation.

DELAWARE HIGHLANDS CONSERVANCY
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2015

NOTE 11 - UNCERTAIN INCOME TAX POSITIONS

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Conservancy and recognize a tax liability if the Conservancy has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Management has analyzed the tax positions taken by the Conservancy, and has concluded that as of December, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Conservancy is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE 12 – SUBSEQUENT EVENTS

Subsequent events were evaluated through March 15, 2016, which is the date the financial statements were available to be issued.
